DETAILED ACTION

Allowable Subject Matter

1. Claims 1-10 are allowed.

The following is an examiner's statement of reasons for allowance: The primary reasons for the indication of the allowability of claims 1-10 are:

Regarding claims 1-5, the prior art does not teach or fairly suggest in combination with the other claimed limitations the guide rail groove being configured to guide the guide rail first in a sliding direction and then at an angle to the sliding direction such that the maintenance surface is oriented in a direction perpendicular to a direction for viewing the maintenance surface of the junction box body.

Regarding claims 6-10, the prior art does not teach or fairly suggest in combination with the other claimed limitations at least one guide rail groove being configured to guide the at least one guide rail first in a sliding direction and then at an angle to the sliding direction such that the maintenance surface is oriented in a direction perpendicular to a direction for viewing the maintenance surface of the junction box body.

These limitations were found in claims 1-10, and are neither disclosed nor taught by the prior art of record, alone or in combination.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
